Use the Farts to buy this Book!!!By MangoStarfishCreationsThere are many parody books/movies out there but none compare to the Parodyverse that Joe Cabello has created. It's brilliantly written and instead of just cut and paste bathroom humor and stupid one-liners most parody books bring (Joe) dives into a non stop poop smear of cock inuedos, poopy one liners and a rich history I cant wait to sink my teeth into. Simply put I was touched and moved by The Farts Awakens.1 of 1 people found the following review helpful. Hilarious and juvenile. Everything you'd want in a parody.By JeffBrilliant execution overall. I don't want to mention any of my favorite aspects of the plot because each page feels like a splendid surprise. I bought this after I heard it existed and I'm glad I did; now I want to share it with all of my fellow Star Wars nerds.1 of 1 people found the following review helpful. Really loved this parodyBy American ConsumerReally loved this parody, it reminds me of those old 'Bored of the Rings' parody books, but contemporary and hilarious. Definitely a bargain for a priceless read.

Written in easy-to-read screenplay format, this aggressively stupid, incredibly hilarious Star Wars parody follows the adventures of Rey Toiletbowler and Finn Hardwiper as they learn to use the Farts, the mystical power of the Browneye. With the help of Handjob Solo, Princess Lay-yuh, and Jewbacca, they'll try to stop the Empooper from releasing a weapon with unimaginable smell. History: 30 years after the fall of the Galactic Empooper by the hand of the Rebel Assliance, the Empooper has regained strength, propelled by an unknown, dark power. Lead by General Fucks, their plan to dominate the galaxy is almost complete, using a new weapon, the power of which has never been seen before. As time has passed and faded away, so have the lessons learned, and the heroics of the Rebel Assliance long ago. People have since forgotten the part that Luko Cockblocker played in defeating the evils of the Empooper. They have forgotten how he used the Farts, a binding, ubiquitous force found in the anus, to ultimately defeat Shart Vader.The Browneye, an order of warriors who used the Farts for good, have been forgotten and relegated to legend. Nothing more than stories told to children, or printed in books meant to be read on the toilet. There are, however, dark forces slowly gaining power, and those who have felt the farts before will start to feel them again.

About the AuthorJoe Cabello is a comedian and writer who is counting on someone else to write the next great American novel so he can focus on writing dumb stories and dad-jokes. You can buy his book The Longest Haiku on , and see his work at the UCB and iO West Theaters in Los Angeles.
