Gideon Wurdz : The Foolish Dictionary before purchasing it in order to gage whether or not it would be worth my time, and all praised The Foolish Dictionary:

1 of 1 people found the following review helpful. Loved it!!!By Lisa FurlongA great read. It was very interesting and funny all in one book. Would suggest to anyone for a great gift.0 of 0 people found the following review helpful. Great giftBy AlexI got this for a gift and it was perfect. The recipient loved it--just the effect I wanted to create!0 of 0 people found the following review helpful. Witty little book, fun to amble through in a leisurely wayBy D. MckinzieThis droll, and often outright funny, little book has been updated over the years, but the copy I have is the second edition,

from 1904. I recently bought another copy to give to a book-loving friend as a gift. It has witty, silly and sometimes slightly dated definitions of various words. Sometimes the definitions have to do with something that was current at the time and you may have to think about it, or even do a little research to find the full meaning, but most are not that difficult, if you have a brain and can think! I get my copy out occasionally, when I want a laugh, and just flip through it. It's amazing to me that a book can be at least 110 years old and still be interesting, and it's not even a novel!
