doing amazing boy things

By JMT Unlike our son, our daughter came slowly to reading, and it was just this year in third grade, that she discovered the joys of the world of books. That given, we went in search of books that weren't all about boy characters doing amazing boy things. I wasn't surprised at the relative dearth of books having main girl characters for younger readers, but I was amazed at how few there were that showed powerful imaginary girls dealing with everyday things. Franny K Stein is my daughter's hero. She is smart, she is funny and she "gets" life and it's struggles and how to deal with them. She allows our daughter to understand her world a little better and to enjoy the triumphs of someone kind of like her.

By T.Nguyen I met a reading teacher who recommended this book to me for my son as a good beginners chapter book for kids. My son loves these books. Still in the process of collecting them all.

By N. Bilmes I'm a 2nd grade teacher who firmly believes that as long as a child is reading a book, then that book is a good book! I don't care if it's Captain Underpants, The Day My Butt Went Psycho, or Charlotte's Web. The only way children are going to become good readers is by practicing reading. The best way to make a child a happy reader is to give that child a book he or she is happy to read. My son is going into second grade and is a reluctant reader. He knows how to read, is good at it, but just doesn't want to do it. Jim Benton's Franny K. series is helping to change that. We just finished reading this entry, and my son was more than eager to help out with the reading so we could find out what happened next. The words might be a little difficult for most beginning readers, but the pictures are great, the chapters are short, and lots of funny things happen. I'll be using the Franny K. series in my classroom this year, and firmly believe it'll help lots of reluctant readers become better readers.

FOR USE IN SCHOOLS AND LIBRARIES ONLY. When her embarrassing middle name is revealed at school, mad-scientist Franny K. Stein experiments with time in order to return to the past and give herself a more dignified name.

From School Library Journal

Grade 2-4—Franny K. Stein likes to project a menacing image, so she is mortified when her classmates learn that her middle name is Kissypie. Embarrassed by all the teasing, she invents a time-warp device to travel back and change her birth certificate to read Kaboom. While she is in the past, she tells her infant self, There is nothing worse than being laughed at. Unfortunately, Baby Franny takes the lesson too much to heart. When she decides to take a peek at her future self before returning to her own time, she discovers that Teen Franny is out of control. Determined that no one will ever laugh at her again, the adolescent super villain is out to conquer the world. Can Franny save civilization from herself? The short, deadpan text is just spooky enough for transition readers and the black-and-white cartoon illustrations add to the mock-gothic atmosphere. There is even a subtle message about courage and self-confidence. A great choice for younger readers who demand a scary one.—Elaine E. Knight, Lincoln Elementary Schools, IL

From the Publisher

Franny K. Stein is not your average girl - she's a mad scientist. She prefers poison ivy to daisies, and when Franny jumps rope, she uses her pet snake. The kids in Franny's class think she's weird, wacky, and just plain creepy. Let your readers decide for themselves when they read these fabulously funny stories. Spotlight is a division of ABDO Publishing Group. Grades 2-5. Each Spotlight edition is printed on high-quality paper. We use the original publisher's files to adjust the book's layout so no artwork or text is near the gutter for our reinforced library bindings specifically printed for the library market.

About the Author

Jim Benton is a writer and cartoonist whose unique brand of humor has been seen on toys, television, T-shirts, greeting cards, and even underwear. Franny K. Stein is the first character he's created especially for young children. A husband and father of two, he lives in Michigan, where he works in a studio that really and truly does have creepy stuff in it. Visit him at www.frannykstein.com.
