The book just didn't quite have enough meat in it for me---pleasant enough, but not up to the level of Penick3 of 3 people found the following review helpful. Sharing her love for the gameBy Connie GoebThe book is a delightful assortment of reminscenses from LPGA/PGA teaching pro, Annie Loughlin from her decades long careerinstructing beginners and seasoned golfers in a game she clearly loves. Make no mistake; Annie is a serious golfer, but the message of the book is that golf is FUN and her anecdotes reflect the joy she has for the game and her passion for making her students more successful while enjoying the process of sharpening their skills.Annie's book is a work of art with its cleverly attractive cover and a poetic foreword by Steven

Pressfield who clearly admires Annie as a golf pro and as a person. Great gift especially for new golfers or those struggling with their game. I would recommend every pro shop carry Annie's book for the vast majority of their customers who play the game for fresh air, exercise, camaraderie and some laughs. 1 of 1 people found the following review helpful. The Golf Letters By Toni As a long time golf student of Annie Loughlin, I enthusiastically recommend The Golf Letters to all golfers, would be golfers, and friends and family of golfers! My copy has yellow highlights, and notes in the margins. The Golf Letters is more than a charming collection of little stories. It is more than funny tales. It is indeed a succinct statement of what golf is really all about! As I read through the book, I am reminded of all the tips and knowledge Annie has shared with me through many years of instruction. As I play golf or practice on my own, Annie is there. When in trouble, I ask myself "What would Annie say?" She is an excellent teacher, and her skill and passion shine through on the pages of this little book. I can't wait for the next tale! -Toni San Jose, California

The Golf Letters focuses on the lessons and wisdom Annie gained in teaching golf. Annie realized that golf's most salient characteristic is the universality of human nature with its foibles and triumphs. Early on, Annie wanted to capture that essence of the game and teach it to students. How can one capture a flame of awareness and pass it on? Through stories and anecdotes. Annie captured thoughts, musings and incidents from more than two decades of lessons on 4 x 6 cards. Then, she found common strains running through all the lessons. The tales told here are not lengthy, but are meant to convey some inspiration, some education and some humor. The Golf Letters hopes to remind and inform the golfer and non-golfer alike that golf is much more than what meets the eye. It is much more than the mechanics of the swing. The game, as Annie says, is a game of recovery. So, sit back and enjoy this intense and thrilling little ride. Annie wishes that for you.

The Golf Letters isn't instruction. It's not tips or fixes or how-to's. But you may find, as I did, when you've finished reading it, that you've learned more about golf - and life - than you did from a summer of lessons or a library full of books. Enjoy! --Steven Pressfield, author, Legend of Bagger Vance, The War of Art and more recently, Do the Work  
Ann Loughlin has been involved in so many aspects of the game - official, teacher, coach, educator, player, caddy-that her collection of wonderful observations covers more territory than almost any golfer can imagine. These aren't golf lessons-they are life lessons - all revealed through the eyes of a wonderful Irish teacher and student of the game -the "Official" Ann Loughlin --Mary E. Murphy, Founder, Golf Events International and LPGA Tour Member  
The Golf Letters is full of pithy, quick, entertaining and fun stories based upon golf professional Ann Loughlin's many years in the golf business. Better yet, most of the anecdotes also offer golf and life lessons. I heartily recommend it." --Bob Fagan, Golf Writer Golf Nut of the Year  
About the Author  
Annie Loughlin holds LPGA and PGA membership as well as a Masters degree. She is an award-winning golf instructor and has taught golf for 22 years. Her company, Loughlin Golf, is based in Missoula, Montana. Annie makes life interesting being an author, humorist and speaker. She travels, teaches and speaks to individuals and organizations who desire to learn golf and understand its insights and lessons. Annie has travelled with clients to Ireland many times and honed her humor and observational and instruction skills on the great links courses. She relishes the hushed tones of a conversation, the dim light of a fading horizon and the wink of an eye.
