Imaginative adaptata of original text with many golf terms incorporated. I was pleasantly surprised by the quality of the illustrations. I can think of other adult golfers and picture book lovers who would be tickled by this book. Fast delivery.0 of 0 people found the following review helpful. Not a great gift.By yellow paulsenThe text and illustrations are great. However the three pages in the back of the book /selling other books cheapens it. I bought it as a present but am now not sure I can give it. Disappointed.0 of 0 people found the following review helpful. Nice for golfersBy ChangelaGolfing husband liked this a lot.
