laughing so much while reading this book. It's all true, all documented, and all so sad. Yet, it seems, that Americans are gluttons for punishment. Why do we even entertain the idea of voting republican? 5 of 5 people found the following review helpful. A Gem Of A Book! Should Be Required Reading Before Graduating College! By Danny G. The writers of this book dig deep and name names. I couldn't find anything to disagree with! While there are plenty of lousy Democrats, there are 10 times more lousy Republicans than Democrats. Also the Republicans will do and say anything to get or keep power. A good example is the current U.S. Senator from Georgia, Saxby Chambliss. He wanted power so bad he ran sickening ads against the then Democratic Senator Max Cleland, who happens to be a triple amputee as a result of combat in Vietnam. This Republican low-life ran ads on T.V. questioning Senator Cleland's patriotism, even comparing him to Osama bin Laden (See page 64)! Obviously, the ads worked! Senator Cleland lost the election and Senator Chambliss is still Senator as of 2011. It looks like his reprehensible behavior didn't cause him to lose any sleep, either! I never heard Chambliss apologize for stooping so low!. My only criticism of the GOP-Haters Guidebook is the title. I doubt anyone but those who already strongly dislike the Republicans bothered to read this book. Next time, come up with a more clever title so this type of book gets a wider audience! People need to know the facts. They can then draw their own conclusions! 1 of 7 people found the following review helpful. GOP Haters Handbook By Van F. Morgan I haven't finished the book yet. It has some good material. I don't think it's that well organized or documented.

The GOP-Hater's Handbook is a godsend to those looking for a concise, scary and darkly entertaining overview of the Grand Old Party record from a liberal perspective; or those who want to arm themselves with talking points, facts, and figures for debates with conservatives; and for those seeking the perfect holiday gift book for that certain, special GOP-hater in their lives, or for a Republican they hope to rescue from the outer darkness. Summarizing, detailing, and bewailing all of the more important Republican outrages, and some of the more trivial ones, The GOP-Hater's Handbook is the brainchild of Jack Huberman, author of the bestselling The Bush-Hater's Handbook, a former Canadian who took up U.S. citizenship just so he could vote against Dubya in 2000.

About the Author Jack Huberman is the author of the The Bush-Hater's Handbook; Bushit: An A-Z Guide to the Bush Attack on Truth, Justice, Equality, and the American Way; 101 People Who Are REALLY Screwing Up America (And Bernard Goldberg is Only #73), a response to conservative Goldberg's ridiculous 100 People Who Are Screwing Up America (And Al Franken is #37), and The Quotable Atheist—all published by Nation Books. In past decades, he has been an architect, cartoonist, illustrator, freelance editor, newspaper reporter, and stock trader.
