I was hoping that the pictures would reflect the one on the front cover but was pretty disappointed. This coloring book is geared towards older girls. I'm returning it because I have a 4 year old that loves coloring in my adult books, but even those are simpler than some of these pages. She could have probably only colored 4 or 5 of these pages without giving up. However, since no one has posted pictures, I've taken some pictures. Hopefully I will save someone's time with returning or convince them that this is the book their child has been looking for. 22 of 22 people

She said the best part is that the pages are thick enough that she can color with markers it doesn't bleed through. The pages are single sided, so you can use colored pencils, markers, even paint if you'd like.Definitely well worth the money!!11 of 11 people found the following review helpful. Fun for young "adults"By Alixandra BrewerMy daughter loves this coloring book for girls. She's 10 and she loves the adult coloring books that I use, but some of them are a little to advanced for her and she will get bored easily, but not with this book. She will spend hours coloring in this book meticulously choosing each color and making sure to stay in the lines. I love it, and it is so something that we can enjoy together.
