**Matthew David Brozik, Jacob Sager Weinstein : The Government Manual for New Wizards** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Government Manual for New Wizards:

Weinstein-Brozik duo are at it again!By AM VehlingIf you loved "Superheroes" then you will be equally infatuated with "Wizards." What would take 7 years at Hogwarts will only take a few hours with the Wizards manual. You'll be casting spells and triggering mass-lynchings and protests from the Christian Right in no time!Oh,

and it's really really funny, too. 0 of 0 people found the following review helpful. Not to be taken seriously  
By MandySaw this item listed for around \$2.00 and I bought a few of this as a joke for friends I thought would appreciate it. I wouldn't pay much more than that for it, but it's an amusing read to pass the time.

The comedic duo behind *The Government Manual for New Superheroes* is back, and this time they've brought their magic wands and enchanted artifacts. *The Government Manual for New Wizards* is a hilarious, mock-official handbook for wannabe witches and warlocks who need advice on recognizing the onset of wizardhood, understanding the laws of magic (and the magic of laws), choosing (or being chosen by) the right magical items and enchanted artifacts, dealing with the dead (grateful and otherwise), successfully hosting magical exhibitions, and the proper care and feeding of magical creatures. Wands, charms, cloaks of invisibility, shoes of stealth (or sneakers), and other otherworldly accoutrements--it's all here, discussed tongue-in-cheek but with the utmost Governmental authority. This entertaining guide offers such sage advice as: \* A demon is just as afraid of you as you are of it-- provided, of course, that you are eight feet tall, composed of living fire, and capable of destroying a small village with a single angry thought. Otherwise, it doesn't find you frightening at all. \* When selecting educational programs, do not be tempted by solicitations from wizardry parchment mills. A so-called degree from such a place is not worth the scroll on which it appears to be inscribed. The ink will disappear not long after the school itself does. *The Government Manual for New Wizards* is a sidesplitting spoof of all things wizard-y.
