**justine r kelly : the Grand Adventure of Prince Usab his Horse Roger** before purchasing it in order to gage whether or not it would be worth my time, and all praised the Grand Adventure of Prince Usab his Horse Roger:

0 of 0 people found the following review helpful. Delightfully fun - made for story telling timeBy SandyFull of fantasy and fanciful worlds this is a Children's fable in the grandest of traditions. There are adventures and lessons learned along the way on a fun filled story of personal growth.The prince, his faithful horse Roger lead quite an

adventure with teddy bears that aren't quite what they seem and savior marsupials to find the princess in a strange land. The prince's rival, the ever inventive General Jit, manage to learn lessons while saving the princess. Two (number two) gets his best wishes as does Uncle Bip. Unrequited love finds its way in the end and all is good. There are plenty of adventures for night time stories at home or weeks of afternoon reading/story time with kinder and 1st graders 0 of 0 people found the following review helpful. A somewhat different fairytale By hungry caterpillar In Satisfied Land, where talents and foibles are distributed fairly, where 24 seconds of rain and not one drop more tumble daily on The King Queen and their content people, something is amiss. Bald, beautiful and bored, Princess Spatlina is on the lookout for kicks when an unknown prince on an impressive white singing horse rides down from the horizon. Enter: Prince Usab and his horse, Roger. What follows is a finger-licking fairytale satire à la Shrek, complete with perils, confounded roles, thwarted love and plenty of delicious innuendoes to ensure that this book is fun read with a kid on your lap or for us grown-ups on our own. For those who like to squeeze that something extra out of storytime, the book is a gem. It contains countless opportunities to turn the reading into a fun-packed learning activity fostering language skills, awareness of narrative form, environmental issues and ethics in general. Made me want to be a primary school teacher or a young mum all over again! 0 of 0 people found the following review helpful. Magical, humorous, and thought-provoking adventure! Wonderful story for children... Entertaining read for Adults! By agapefalcon Grand adventure indeed! I thoroughly enjoyed this spellbinding journey, a fantastic odyssey that offers something for the entire family - cynics, scholars, and schoolchildren alike! Kids will love the Candyland-like gags and gumdrop goodies, hopeless romantics will feel like they are revisiting the heartwarming magic of The Princess Bride, stern and overly-serious parents will have no choice but to giggle and snort at the Shrek-style humor and over-the-top characters that, at times, gives Alice and her Wonderland crew a run for their money. This book is packed with brilliant social commentary that pokes great fun at all sides of the political spectrum without managing to overstep acceptable boundaries or take itself too seriously. I love the fact that all of the characters have at least one obvious and fatal flaw but all seem to blend together into one dysfunctional but deliriously entertaining cast of misfits. From a cowardly prince and bald princess who are anything but your typical fairy tale heroes to "vampire" teddy bears who appear cute and cuddly but suck the emotional life out of their victims, the characters in this book are uniquely developed and, at first glance, appear woefully unprepared to embark on any sort of adventure, especially when the fate that has befallen them requires a dramatic rescue from... themselves! Considering how unconventional this story is, I found myself wondering the whole way through whether our heroes would even be able to stumble their way to a happy ending. So does this story end with blissful happiness or does it leave the reader quagmired in the "Republic of Much Enthusiasm But Not Very Well Thought Out"? Well, far be it from me to spoil a good read... Pick up a copy and find out! Just don't forget to invite your talking horse Roger along for the ride!

The Prince on his white horse Roger is rejected and publically humiliated by the Princess. Downhearted he embarks on a journey meeting philosophizing tadpoles, teddy bear vampires, koala spies and much more. This is a fairytale in the spirit of Princess Bride that turns into a tale of friendships, an Odyssey through weird worlds offering political satire and pop culture and above all an old fashioned romance.

"A fast-paced outlandish fun fairy-tale bedtime story for ADD on LSD. Check out "The Grand Adventure of Prince Usab His Horse Roger" by Justine Rachel Kelly." Conrad Zero, Goodreads " I thoroughly enjoyed this spellbinding journey, a fantastic odyssey that offers something for the entire family - cynics, scholars, and schoolchildren alike! Kids will love the Candyland-like gags and gumdrop goodies, hopeless romantics will feel like they are revisiting the heartwarming magic of The Princess Bride, stern and overly-serious parents will have no choice but to giggle and snort at the Shrek-style humor and over-the-top characters that, at times, gives Alice and her Wonderland crew a run for their money. This book is packed with brilliant social commentary that pokes great fun at all sides of the political spectrum without managing to overstep acceptable boundaries or take itself too seriously" Agapefalcon,
