thrown in at the same time. As a long-time fan of his TV shows, this was the first book I have read. It is well worth the time and effort to read, especially if you need a good laugh. This book is primarily focused for the person who does not take himself/herself too seriously. If you are wrapped way too tight, this book will help you unwind. We should all consider joining Possum Lodge, should we happen to live in the rat-race we call life in America today! 0 of 0 people found the following review helpful. Four Stars By Lost Dorsai Funny read. Written a lot like the show, not written in the typical chapter style. 0 of 0 people found the following review helpful. Clever, witty and very funny By Steve PA After knowing the show since its inception in the early 90s, I have come to respect and admire the intuitive way Red Green looks at life. No ambition, full of excuses and yet all knowing, Mr. Green takes complex issues and boils them down to the basics. No fancy cars or houses, just creative methods to use junk and justify your existence to your wife. We are men, but we can change, if we have to, I guess. Read on!

Red Green was recycling material long before the green revolution got underway. Look at the automobiles he's driven over the years. Many of those were assembled using the same basic method employed for The Green Red Green: by welding together the surviving bits of some old wrecks. In this case, we're talking about the three Red Green books published long ago by other, inferior publishers: Duct Tape Is Not Enough, a collection of newspaper columns by Red Green's alter-ego Steve Smith on surviving middle age; Red Green Talks Cars; and Red's literary debut The Red Green Book, a souvenir of the TV show. The selection for his best-of pretty much made itself. Out went the Steve Smith columns with once-topical references; out went the material from The Red Green Book that was in the voices of the other characters (he's been carrying those bums for too long) and out went very little from the perennially hilarious Cars. The resulting mass of pieces have been well-shaken into a new mix; re-edited to new levels of sharpness and hilarity, and updated so that, for example, jokes about hairstyles now feature Russell Brand and not Rod Stewart. And the perfectly competent illustrations from the previous books have been replaced by much better, incompetent ones by the author, so that the look of this book very much resembles How to Do Everything.

“When looking for wisdom on big questions, I turn to either the Bible or Red Green. — Ken Gallinger, Ethically Speaking columnist, Toronto Star About the Author RED GREEN is the leader of Possum Lodge, Chapter 11, a northern Ontario eyesore. He is friendly, inventive, cheap and as honest as the day is long, which means he's the least honest on December 21. When he works on his handyman projects, Red is not stupid, he's impatient. So he uses duct tape to "buy time." Red Green is the star of The Red Green Show, which had first runs in Canada and the US from 1991 until 2006, making it the longest running live-action scripted comedy in the world. It continues to be enormously popular in reruns here and in the States. Red Green is the creation of Canadian comedian and writer Steve Smith. The author lives in Possum Lodge, Ontario.
