Before I presented it, I read the book and found it pretty 'right on' in terms of advice. The only negative for me was the faith based portions. Despite this I still give it five stars. The best part for me was the core advice: when all else fails, just smile and nod. Three simple words that provide great advice for any husband. Smile and nod. Excellent! 2 of 2 people found the following review helpful. authentic, cute, and surprisingly wise. By Karen Sampson Hudson "The Husband Book" would make a good gift for your mate, ladies. It's a quick read, with one maxim per page. You can read it before you present it to him, and put a star by the advice that is most pertinent! Probably not all of the sage advice will apply to your marriage---each one is different, after all--but there is a generous supply of common-sense adages that you are sure to find meaningful. (It can be astonishingly refreshing to realize how many of us share the same problems, misunderstandings, and communication failures!) This book will make you both smile, and you may find some healing touches in its pages, as well. Recommended. 1 of 1 people found the following review helpful.
