Worth Any PriceBy Joseph HeywoodThis book is wonderful! Its humor is made no less by the (very appropriate) frequent references to bodily fluids and functions. The facts are very interesting and almost shocking at times, even to well-educated adults. Great read!4 of 4 people found the following review helpful. Wonderful book for curious mindsBy JanetSuch a fun book for curious little animal lovers! I purchased this as a gift for a friend's son and he loved it. Also, I learned a few interesting facts myself! And the illustrations are just whimsical.

An artfully playful collection of unexpected and remarkable facts about animals, illustrated by Swedish artist Maja Säfström. Did you know that an octopus has three hearts? Or that ostriches can't walk backward? Or that a group of owls is called a parliament, or that they have three eyelids? Sea otters hold hands in their sleep, bees never sleep, and penguins laugh when they're tickled! This charming compendium contains over 100 pages of fascinating facts about the animal kingdom illustrated with whimsical detail. A New York Times bestseller
