Five StarsBy Carol H.Funny and gross!2 of 2 people found the following review helpful. Oh My!By Zippity-do-dahThis is hilarious! I work as a RN in a hospital. Our department sent this coloring book to our Infection Control team as a joke gift. It was well received with good humor. They cheerfully colored a horrid wide open mouth with disgusting details

in gratitude, signed it and returned it to us with their many thanks. Relatively educational. Designs are on one side only. Terrific as a gag gift, or for curious children who love the totally gross.

A Beautiful disgusting Coloring Book
