**Pastor Brett Pirkle : The Intelligent Design Coloring Book** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Intelligent Design Coloring Book:

3 of 4 people found the following review helpful. What's Wrong With People Today? By Seth Lord I wondered what had happened to Pastor Brett who ran the Open-Hearted Ministry at Maharishi University in Iowa when I was an undergrad. Sure enough, the power of his words rang true once again when I opened my copy of T.I.D.C.B. While the other students were nursing hangovers, Pastor Brett would burst into their rooms with his Gibson guitar, strumming loudly, and singing at the top of his lungs. They certainly weren't going to drink again after hearing his fabulous voice! And I recall him offering t-shirts to the scantily-clothed young women in their bikinis. I love his book too! It makes so

much sense in these troubled times. How I wish that there were more men of character in our governments like Pastor Brett. Buy his book, all you people, and understand what needs to be done! 15 of 17 people found the following review helpful. More Entertaining Than The Bible By Andrew Shotland If you are looking for something for the kids to doodle in while watching TBN, The Intelligent Design Coloring Book is for you. I wouldn't be surprised if one of them asks "Dad, what's the color for Blasphemy?" A great gift for the apostate in the family. 6 of 7 people found the following review helpful. Fun for the Whole Family (Values) By Lilybart This thoughtful activity "book" distills a complicated alternative theory to challenge the Darwin-worship advocated by "scientists" (what do THEY know?), in a format appealing and suitable for young folk and their pastoral caretakers. Although this "book" is less focused on sex, sin, and sodomy than, say, the Old Testament, it does come with potentially titillating line drawings. While less graphic than medieval paintings of the hellbound being fed into the mouth of Satan and tortured, these might cause faint "down-there" stirrings in the loins of impressionable youngsters. Parental guidance suggested. The sublime drawings are accompanied by helpful text. There's no bibliography nor footnotes to support the information provided, but who cares: if you're making crap up in the name of Jesus, then you're doing the Lord's work, so the facts needn't matter. Go, God! Wooo-ooo! This "book" is sure to send out the message: God rules, science drools! \* "book" is given in scare-quotes as there is ONLY one Book and it's good 'cos it says so-- right there in the book that says it's good. QED.

A child's life is full of both joys and challenges—the infinite wonder of learning, the literal and figurative scraped knees of everyday life, and, of course, deep, penetrating theological terror. That's why Pastor Brett of the Mega-Pheasant Heights Assembly Church has created an activity book that will divert those long lazy hours of idle youth into a soul-saving good time. Inside are crafty puzzles, mazes of wrath, and connect-the-dots! Also, the mysteries of God's creation are revealed and explored, including, but not limited to: why God sometimes does not answer your prayers; why heterosexual monogamy is demanded of us; and why listening to scientists will end with your corporeal destruction and eternal damnation. You will learn the nature of other "religions" as well as how best to crush them. And then there will be juice boxes. While tradition states that the path to heaven is paved by knowledge of scripture, the doing of good works, and the conversion of heathens, it has recently been revealed that no one can obtain their eternal reward without first obtaining a copy of The Intelligent Design Coloring Book!
