Buck Peterson : The International Roadkill Cookbook before purchasing it in order to gage whether or not it would be worth my time, and all praised The International Roadkill Cookbook:

Funny and entertaining, a light read that can easy be put down and picked back up without forgetting your place. Not as funny as Buck's guide to deer hunting, but still very entertaining. Stories are shorter and lighter than other outdoor humorists

(Like Pat McManus) so they are great for quick reads while waiting for an appointment, etc...

In his inimitable style, Buck Peterson takes the reader to such far-flung, well-hung places as Azerbebygones and the Isle of Gilligan to enjoy foodstuffs once known only to a small handful of well-heeled heels. The International Cookbook teaches the where and how to practice roadkill skills on foreign soil, details the food customs and traditions of the home country, and serves the most popular recipes prepared in Buck's own roadside test kitchens. The recipes include the popular UK dish -Bangered and Mashed, Chili's national dish - Chili Con Carnage, Pakistan's Chicken Peeloff and Germany's Hasenpflatten.

About the AuthorAs America's Most Non-mainstream Game Biologist" and director of the Meals Under Wheels Foundation, Buck leads the shopping along the bountiful highway supermarket. All recipes have been certified to be at least warm if heated by the test kitchens off the Valhalla Lounge at the lodge on Big Babe Lake in northernmost Minnesota or at the cyber-kitchens at Buck's Outdoor World. Buck was the first author of note to both document roadside shopping and introduce the world to the very fast food cuisine of roads and highways in The Original Roadkill Cookbook.
