0 of 0 people found the following review helpful. No, it REALLY doesn't work that wayBy S. RenzoOkay, full disclosure: I am a master tax preparer and Enrolled Agent by trade. I have more than 20 years and thousands of client experiences in tax preparation and assistance with audits and tax notifications (fancy words for "the letter from the IRS" - or state.)I recognize Mr. Carstens' point of view, because I have seen it before from many clients who simply

don't understand how the system works. A QUALITY enrolled agent or tax specialist could have had this all settled in under a year. Not every attorney or CPA specializes in taxes - they have other areas they specialize in, and taxes are a little side business to help their clients out. Not every attorney or CPA is fully current on frequent changes in policy and procedure. Not every attorney or CPA does enough tax notification work to have the experience of how things work this year, when changes are happening all the time. Mr. Carstens' satisfaction with sticking it to the IRS is hollow, because he didn't hire the right person in the first place. 0 of 0 people found the following review helpful. had a terrific outcome! By Nita C Although there were a lot of the details in I believe it was the first book of the series, more details and things not in the first book made for some very interesting and informational reading! When it finally settled, had a terrific outcome! 2 of 2 people found the following review helpful. It needs to happen more! By Sharon Moorhouse Too bad all of us can not do this to the government. They need a wake up call. Let try and get more info on the internet, and have lawyers who are willing to help.

This is a true story the IRS wrongfully levying taxes on someone then harassing her for ten years to pay taxes she did not owe and making her life hell. Her husband sued the government and whipped them badly and made them pay for it. It is also a true story of serious incompetence on the part of your government and the people who work for it. Basically it confirms what you already know but lets you realize you do not have to take and you can fight them and succeed.
