I loved this book when I was my son's age and he loves it too. He has already memorized most of the jokes so I read the jokes and he says the punchlines. It was so fun to read it with him the first time and all the memories came back from when I was a kid. I remembered all the jokes too!0 of 0 people found the following review helpful. My daughter loves this book!By A Customer"The Joke Book" is full of cute, funny jokes for young children. My 5-year old giggles hysterically when she hears jokes such as: "Why do elephants have so many wrinkles?" Answer? "Have you ever tried to iron one?" The illustrations are busy-lots for children to look at and comment on. All in all, this is a fabulously funny book for kids!
