From Arcturus Publishing Ltd : The Kew Gardens Beautiful Flowers Colouring Book before purchasing it in order to gage whether or not it would be worth my time, and all praised The Kew Gardens Beautiful Flowers Colouring Book:

0 of 0 people found the following review helpful. A MUSTBy jkempArrived early, as with The Kews Gardens books it is lovely. I love these books from the colorful plates, the drawings for coloring, the paper, the lovely flowers. Be advised though if you aren't careful its very easy to wrinkle or crumple the pages. That's why I gave it 4* instead of 5*****. My book arrived with some pages in back of book with crumpled pages which do not go away even with pressure.0 of 0 people found the following review helpful. Truly lovelyBy E. BobbBeautiful book, quick delivery.0 of 0 people found the following review helpful. Super bookBy julesLovely book very detailed drawings

From sweet Rosa alba and Camellia reticulata to flashy Amaryllis pardina and deeply hued Higginsia regalis, here are 44 floral engravings to color. For more than 100 years, after moving publication to Kew in 1841, the hand-drawn and

colored illustrations in Curtis's Botanical Magazine were made from live specimens at the Royal Botanic Gardens. This coloring book presents 44 of the magazine's beautiful full-page illustrations-nearly all of them drawn by the prolific Walter Hood Fitch-pairing the final colored versions with the uncolored engravings. Use the original as a guide for your coloring efforts, or strike out on your own and give these floral drawings a personal creative touch.
