Finally there are words to describe them!By ToddI got this on Kindle fire, I'm an uncle 10 times over I got this to lighten up some of the many "kid friendly" events. It's such a hit, funny words that perfectly capture common behaviors of kids their parents. Several of these words will provide parents with a strategic advantage, things you won't learn in the usual "how-to" parent guides.We even started making

a game of it by trying to guess what the word means just from hearing it, then trying to use it in a sentence... Dad knew he'd have to Carnivoid his way to the store back, or spend \$100 on games, rides cotton candy. 1 of 1 people found the following review helpful. Funny and So True! By Olibaba2177 My wife and I just love this book. She was looking for something to get her friend after she had her second child -- just wanted to get her a little something to make her laugh. And this more than did the trick, we were all cracking up when she read them out loud. The definitions are so funny and so dead on. My Favorite is: "carnivoid: To alter your driving route when the kids are in the car so as not to pass by a carnival that is in town." We have totally done that! Lots more I just can't remember them all. You won't be disappointed. 0 of 0 people found the following review helpful. Awesome! By CustomerAwesome and truly humorous...totally can relate.

**Wishjack:** (WISH—jak) v: To blow out the candles on another child's birthday cake. Been a kid? Have a kid? Know a kid? Been left utterly speechless by the wit, wisdom, grossness, and hilarity that accompanies children wherever they go? The Kid Dictionary has the ingenious and hilarious words you need to describe the indescribable: life with kids. Humorous, insightful, and unique, it's perfect for anyone with kids even remotely in their life — from expectant parents to grandparents to aunts and uncles. Finally, the pitch-perfect "why didn't I think of that?" words you've always needed! **Brofitti:** (broh-FEE-tee) v: The act of scribbling with permanent marker on the face of a younger sibling. **Clandesdine:** (klan-DES-dyne) v: To hide from one's child while eating a cookie so he doesn't ask for one too.

At night, he comes home to his wife Kara and their three rambunctious children. There, he's able to step inside of himself to write down the unique and unusual observations that inspire him. He also enjoys editing video, pimping his work via social media, surfing, Frisbee, and ping pong. He studied economics at Dickinson College where he learned that he's not the least bit interested in the theories of economics. So rather than study, he spent most of his time writing.Excerpt. © Reprinted by permission.
