Delicate illustrations, whimsical, somewhat surreal along with realistic style.The liens are fine thin, some images are very detailed, some are less so. The book is nice chunky, the paper is very good quality, thick smooth with a slight tooth, great for dry medium, not sure if suited to liquid medium. Images printed on both sides of paper.Issue would be some of the double page spreads, so the main part of the image ends up right in the crease. Other than that, gorgeous!Definitely worth the price would make a beautiful gift as well.0 of 1 people found the following review helpful.
