Aaron Bacall : The Lighter Side of Educational Leadership before purchasing it in order to gage whether or not it would be worth my time, and all praised The Lighter Side of Educational Leadership:

each cartoon conveys a statement of truth through humor. If you are a school principal, get this book and stop and smell the humor. Laughing and smiling is good for you. It's a stress buster, a sort of Western style yoga. These cartoons make great ice breakers for staff meetings. If you know a school administrator, this is a great gift to give. Take a peek at the funny side of running a school. 1 of 1 people found the following review helpful. Leading with a sense of humor By A Customer If you run a school or a school district you can do it better if you have a sense of humor. The cartoons in this book provide that. As one who has a leadership role in education, I can see myself reflected in many of the cartoons in this book. If you have a role in educational leadership the cartoons in this book will prompt knowing snickers and laughs along with the proverbial 'grain of salt' that must be taken with many leadership experiences. 3 of 3 people found the following review helpful. The truth through humor By A Customer This is a delightful collection of well drawn cartoons, each of which shows a behind-the-scene knowledge of the Principal's role in our educational system. These cartoons are funny and truthful at the same time and would be so useful in adding a much needed light touch to educational meetings. This book belongs on every principal's bookshelf.

As educators we often take ourselves a bit too seriously, so veteran educator and illustrator Aaron Bacall offers a little perspective with these lighthearted cartoons.
