**Aaron Bacall : The Lighter Side of Technology in Education** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Lighter Side of Technology in Education:

0 of 0 people found the following review helpful. Hi-Tech Funniness By A Customer I teach computer classes in high school and in college. The cartoons in this funny book deserve a place on the class bulletin board. A few have been

posted there for all to enjoy. The author has a clever way of portraying familiar tech situations in cartoon shorthand. The artwork is very professional and enjoyable. I plan to use one of the cartoons as an ice-breaker for an upcoming workshop.0 of 0 people found the following review helpful. Computers Can Be FunnyBy A CustomerI teach computer courses and the situations described in this wonderful cartoon book look familiar, with a very funny twist. These are professionally sketched cartoons and I have placed a few of them on a bulletin board in the class. We all get a kick out of them. Don't forget to back up your hard drive and to buy this book.0 of 0 people found the following review helpful. Hi Tech Hi LaughsBy A CustomerThere's some funny stuff in this book! I teach computers in a public school and the situations portrayed in this adorable volume seem familiar, with a humorous twist. These cartoons are professionally sketched and make wonderful intro pieces for our school's in-service courses where our staff can upgrade their computer skills.

This collection of whimsical glimpses at technology in education will provide a moment to laugh and add a little levity--and poignancy--to your workday.

About the AuthorAaron Bacalls works have appeared in many publications: The School Administrator, Technology Learning, The New Yorker, The Wall Street Journal, Barrons, and Readers Digest. He has worked as a teacher, a principal curriculum writer, for the New York City Board of Education, an antibiotic research chemist, and now as a full-time cartoonist and the coordinator of medical programs in continuing education at the College of Staten Island in New York. He is a member of the National Cartoonists Society and is on the Board of Governors of the Cartoonists Association.
